HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Mawer has rated the volatility of this Fund as **Medium**.

Because this is a new Fund, the risk rating is only an estimate by Mawer. Generally, the rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the "What are the risks of investing in the Fund?" section of the Fund's simplified prospectus.

NO GUARANTEES

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the Fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the Fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. SALES CHARGES

The Fund does not impose a sales charge. Your representative may charge you a sales commission when you purchase Series A units of the Fund. The sales commission is negotiable between you and your representative.

2. FUND EXPENSES

You don't pay these expenses directly. They affect you because they reduce the returns of this series of the Fund.

The Fund's expenses are made up of the management fee, operating expenses and trading costs. This series' annual management fee is 1.10% of the series' value. Because this series is new, its operating expenses and trading costs are not yet available.

More about the trailing commission

No trailing commission is paid in respect of Series A units.

3. OTHER FEES

You may have to pay other fees when you buy, hold, sell, or switch units of the Fund.

Fee	What you pay
