Minimum Investment:	\$5,000

What Does The Fund Invest In?

The Fund invests in Canadian, US, and International equity securities, as well as bonds and debentures of Canadian government and corporate issues primarily through funds managed by Mawer.

Investor Suitability

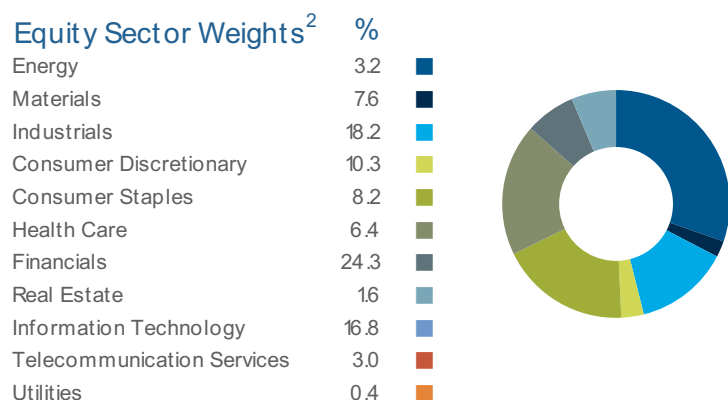

Investors seeking long-term growth at medium risk.

Investment Strategy

The Manager's traditional equity approach of systematically buying wealth creating companies at a discount to intrinsic value is used to construct the equity part of the portfolio. The fixed income part of the portfolio follows our traditional fixed income approach of focusing on sector allocation, security selection, and trading strategies. For asset mix, the Manager analyzes which combination of asset classes is most likely to offer the most attractive risk/return characteristics within a medium to long-term time frame, and carries out asset mix changes gradually to reduce risk.

Net Performance *	1Yr	3 Yr	5 Yr	10 Yr

Please see page 2 for disclosure

- 1 Fund level exposure
- 2 Security level exposure
- 3 Equity and Fixed Income holdings, excluding cash
- 4 The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the year.

* Mawer Fund returns are reported in Canadian dollars and calculated after management fees and operating expenses have been deducted. In comparison, index returns do not incur management fees or operating expenses.

** Mawer Balanced Benchmark History (changes made prospectively):

Jan 2002: 2.5% 91 Day Treasury Bill, 42.5% FTSE TMX Canada Universe Bond, 25% S&P/TSX Composite, 15% S&P 500, 15% MSCI EAFE (net)

Jan 2012: 5% 91 Day Treasury Bill, 35% FTSE TMX Canada Universe Bond, 15% S&P/TSX Composite, 15% S&P 500, 15% MSCI EAFE (net), 7.5% BMO Weighted Small Cap (Blended), 7.5% Russell Global Small Cap

Aug 2013: MSCI EAFE (net) returns is used to calculate the blended benchmark from inception. Previously, MSCI EAFE (gross) was used.

Oct 2015: 5% 91 Day Treasury Bill, 30% FTSE TMX Canada Universe Bond, 5% Citi WGBI, 15% S&P/TSX Composite, 7.5% BMO Small Cap (blended), 15% S&P 500, 15% MSCI EAFE (net), 7.5% Russell Global Small Cap

Oct 2016: 5% 91 Day Treasury Bill, 30% FTSE TMX Canada Universe Bond, 5% Citi WGBI, 15% S&P/TSX Composite, 7.5% S&P/TSX Small Cap, 15% S&P 500, 15% MSCI ACWI ex-USA (net), 7.5% ACWI Small Cap (net)

Rationale for Change: Changes were made to underlying asset class benchmarks as noted in above in the Equity Asset Class Tables. Because the benchmarks for the Mawer Balanced Fund are based on those of the underlying funds, the internal Balanced benchmark changes accordingly.

Mawer International Equity Benchmark History (changes made prospectively):

Jan 1988: MSCI EAFE (net)

Oct 2016: MSCI ACWI ex-USA (net)

Rationale for Change: MSCI ACWI (net) excluding US Index is a better representation of the mandate in our opinion. For example, the past benchmark does not include Emerging Markets whereas the fund has holdings in these markets consistent with its prospectus and investment policy statement.

Mawer New Canada Benchmark History (changes made prospectively):

Jan 1988: BMO Weighted Small Cap (Blended)

Oct 2016: S&P/TSX Small Cap

Rationale for Change: S&P/TSX SmallCap Index is a better benchmark in our opinion. For example, it provides better comparability, liquidity and a more readily available data set.

Mawer Global Small Cap Benchmark History (changes made prospectively):

Oct 2007: Russell Global Small Cap

Oct 2016: ACWI Small Cap (net)

Rationale for Change: MSCI ACWI Small Cap (Net) Index is consistent with using MSCI benchmarks in other asset classes outside of Canada and the United States. In addition, the MSCI ACWI Small Cap (Net) Index follows the Global Investment Classification Standards (GICS) whereas the Russell Global Small Cap Index does not.

Benchmark returns are rebalanced on a monthly basis.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the [fund facts](#) and the [prospectus](#) before investing. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. Mawer Funds are managed by Mawer Investment Management Ltd.

Additionally for money market funds, the performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual fund securities are not covered by the Canada Deposit Insurance Corporation or by any other government deposit insurer. There can be no assurances that the fund will be able to maintain its net asset value per security at a constant amount or that the full amount of your investment in the fund will be returned to you.

The Morningstar Rating, commonly referred to as the Star Rating, relates how a fund has performed on a risk-adjusted basis against its Morningstar category peers and is subject to change every month. Funds are ranked by their Morningstar Risk-Adjusted Return scores with the top 10% of funds in a category receiving 5 stars, the top 22.5% receiving 4 stars; a fund in the middle 35% receiving 3 stars; and a fund in the bottom 22.5% receiving 2 stars. The Overall Star Rating for a fund is a weighted combination of its 3, 5 and 10 year ratings. Overall ratings are adjusted where a fund has less than 5 or 10 years of history. For greater detail see www.morningstar.ca.
