## What Does The Fund Invest In?

The Fund invests primarily in equity and equity-related securities of smaller companies around the world that have a free-float market capitalization of \$3 billion USD or less at the time of initial purchase (with a maximum \$7 Billion USD market capitalization at the time of initial purchase). The amount invested in any one country will vary depending upon individual company by company opportunities in each area. The Fund will diversify through currencies, industries, and countries to increase safety, and to increase the growth and liquidity of the investments. Treasury bills or short-term investments, not exceeding three years to maturity, may also be used from time to time.

## Investor Suitability

Investors seeking long-term, above average growth who can tolerate significant volatility. High risk.

## Investment Strategy

In order to achieve its investment strategy objectives, the Manager systematically creates a broadly diversified portfolio of wealth-creating companies with excellent management teams bought at discounts to their intrinsic values. The Manager employs a highly disciplined, research-driven, bottom-up process and long-term holding period to allow for investor recognition or corporate growth, and to minimize transaction costs.

<sup>1</sup> Equity holdings, excluding cash.

<sup>2</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the year.

<sup>3</sup> Performance has been presented for the A-series mutual funds and has been calculated net of fees. Performance has been expressed in Canadian dollars.

<sup>4</sup> Mawer Global Small Cap Benchmark History (changes made prospectively):

Oct 2007: Russell Global Small Cap

Oct 2016: ACWI Small Cap (net) Total Return Index

Rationale for Change: MSCI ACWI Small Cap (Net) Index is consistent with using MSCI benchmarks in other asset classes outside of Canada and the United States. In addition, the MSCI ACWI Small Cap (Net) Index follows the Global Investment Classification Standards (GICS) whereas the Russell Global Small Cap Index does not.

Benchmark returns are rebalanced on a monthly basis.

This document is for information purposes only. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the fund facts and the prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. Mawer Funds are managed by Mawer Investment Management Ltd. The Morningstar Rating, commonly referred to as the Star Rating, relates how a fund has performed on a risk-adjusted basis against its Morningstar category peers and is subject to change every month. Funds are ranked by their Morningstar Risk-Adjusted Return scores with the top 10% of funds in a category receiving 5 stars, the top 22.5% receiving 4 stars; a fund in the middle 35% receiving 3 stars; and a fund in the bottom 22.5% receiving 2 stars. The Overall Star Rating for a fund is a weighted combination of its 3, 5 and 10 year ratings. Overall ratings are adjusted where a fund has less than 5 or 10 years of history.
